

LEA FRANCIS

Manufacturing

Key Stage 3 and 4 (Year 9 – 11)

75 minute facilitated session

In this workshop, students will explore aspects of manufacturing, including: real manufacturing processes, quality control, and operation planning. The workshop begins with a short tour, which focuses on car seats, enabling students to learn about materials, processes, and job roles. During the workshop, students will work in groups to complete hands-on, problem solving activities.

Curriculum links

Design and Technology:

- Industry
- Production techniques and systems
- Environment

Learning outcomes

- Learn about manufacturing techniques (car seats), from early motor production to present day
- Gain an understanding of real processes used in manufacturing today
- Use group work to take part in practical activities
